Equality and Diversity Data

Introduction

The people who make up Central Chambers workforce are invited to provide diversity data every three years in accordance with the Bar Standards Board's Equality Rules. Enclosed below is a summary of the anonymous data collection exercise undertaken in March 2025.

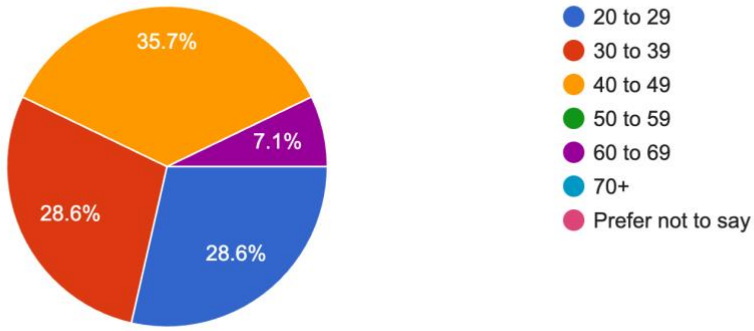

Participation in the diversity data collection survey is voluntary. The results below are based on the responses received and therefore might have been different if all the workforce had participated.

The data published below is based on the responses of 14 people, namely 43% of our workforce. The workforce is comprised of our Barristers, Pupils, and Clerks.

Our Diversity Data Policy and the Bar Standards Board's requirement provide that data will not be published where there are small numbers of individuals within a particular job category with the same relevant characteristic, unless each individual has consented. Even then, we do not publish data where there are reasonable grounds to believe that publication of the summary of anonymous data would result in the identification of an individual in respect of one or more of their diversity characteristics. Where it has not been possible to meaningfully group categories together to avoid identification of certain data this data has then been excluded from publication.

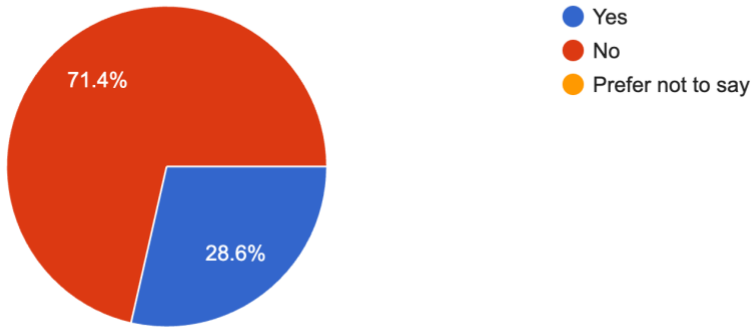

What is your age?

14 responses

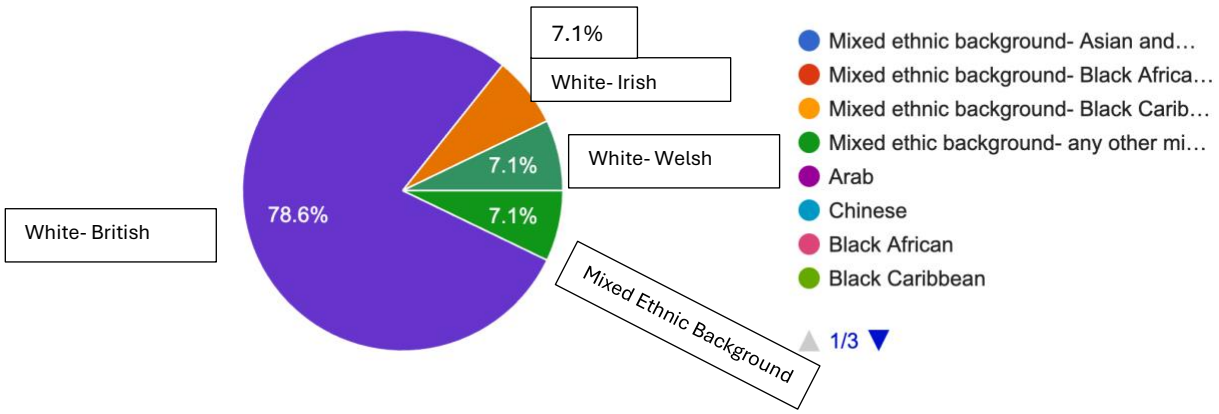

Do you have a disability, impairment, or health condition which affects your day-to-day activities? (This information is for data obtaining purposes onl...scuss this with your equality and diversity officer)

14 responses

What is your ethnicity?
